I'm a web developer based in Turku Specialised in frontend.

My name is Shamsul Alam and I am a product designer with a passion for creating innovative and user-centric designs that solve real-world problems. I have honed my skills in user research, prototyping, and visual design to create products that are not only aesthetically pleasing but also intuitive and effective.
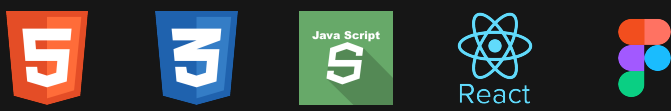

My goal is to create designs that make a positive impact on people's lives and improve their daily experiences, and I am always striving to stay up-to-date with the latest design trends and technologies to push the boundaries of what is possible.
